How to Make Upgrade Decisions When Business Value Proves Elusive

[Download now >>](#)

Oracle E-Business Suite

WHY ORACLE

Oracle E-Business Suite is the most comprehensive suite of integrated, global business applications that provides:

[The most complete, integrated business intelligence portfolio](#)

[The most adaptable global business platform](#)

[The most customer-focused applications strategy](#)

DELIVERING VALUE

"In today's economy, customers may not be inclined to implement large-scale upgrades of their core operational systems. The ability to recognize rapid value in the near term without requiring an upgrade could be viewed as an effective way to build a strategic IT roadmap and lay the ground work for long-term success."

Bruce Richardson
AMR Research Chief Research Officer
on [Oracle E-Business Suite Release 12.1](#).

ORACLE OPTIMIZED SOLUTION FOR ORACLE E-BUSINESS SUITE

This complete, open, and tightly integrated solution delivers up to twice the batch processing performance and handles four times more online users. Oracle optimizes the performance of each piece of the [Oracle E-Business Suite to disk stack](#) individually as part of the stack—from the applications through Oracle Database and the Oracle Solaris operating system to the servers and storage. Oracle software is enhanced to take advantage of the unique features of Oracle's Sun SPARC servers and Sun Storage, including high levels of threading and flash cache technology,
